I understand that microdermabrasion is a superficial mechanical abrasion to the skin. _____ Client Initials

I understand that the mechanical abrasion is accomplished by using a machine (microdermabrader) that delivers a vacuum and uses Aluminum Oxide crystals that exfoliate the skin. Aluminum Oxide is an **inert crystal** known for its abrasive qualities and there is no connection between Aluminum Oxide Crystals and any known disease.

_____ Client Initials

I understand that one of the primary purposes of this procedure is to prepare the skin to accept, and increase the absorption properties of active ingredient rejuvenation products, and or chemicals and that certain Infusion Solutions may be used during this treatment. I understand that the Solutions are generally tolerated very well by most patients; however, there may be irritation to my skin.

_____ Client Initials

It has been explained to me that because microdermabrasion procedures provide a superficial abrasion to the skin, the results of a one-time treatment is similar to a deep cleansing or polishing of the skin. I understand that in order to see significant results these treatments need to be done in a series and in combination with active ingredient skin care products.

_____ Client Initials

I acknowledge that immediately after my microdermabrasion procedure all treated areas may feel warm and appear sunburned and could feel wind burned. My skin may feel dry and sensitive for several days after the treatment.

_____ Client Initials

Patients that are undergoing a series of treatments: I acknowledge that complete compliance to my skin care program will enhance the outcome of my microdermabrasion treatments. This includes the use of SPF 30 sun protection over the treated areas on a daily basis during my treatment series.

_____ Client Initials

I understand that there can be no guarantee as to how effective the outcome of my treatment(s) will be. There also can be no **guarantee** that dark discoloration (e.g. hyperpigmentation or melasma), stretch marks, or fine lines and wrinkles will be reduced or fade. It has been explained to me, and I understand, that these conditions will respond much better when part of an overall skincare program.
